Keith's Layers (Klayers)

python 3 ready | code quality: python A

A collection of AWS Lambda Layers for Python3.7

Status of layers

pyup 13 updates

Click on badge above to see the specific package version of the latest builds.

Layers are built with the latest package version (available on PyPI) every Monday at 1:00am (UTC)

Layer List

All layers are publicly available with the following ARN pattern:

arn:aws:lambda:<**region**>:113088814899:layer:<**Layer Name**>:<**version**>

Full list of publicly available layers by region are here.

Python Packages

All packages below were built with the Python 3.7 runtime. May (or may not) work with Python 3.6. View here for detail list of package versions.
